Olmsted Medical Center to Break Ground for New Clinic

Rochester, Minn.—Olmsted Medical Center (OMC) will hold a groundbreaking event on Thursday, July 22, from 11:00 AM to noon, at the site of its future outpatient clinic in Northwest Rochester.

Construction of the 64,000-square-foot facility will soon begin on the site, which is located on the northwest corner of the intersection of 55th Street and 50th Avenue NW in Rochester. The new facility will cost \$13.8 million to build and will be ready to serve patients in 2011. OMC's investment in the new clinic results from its confidence in the economic strength and continued growth of the city, as well as the need for a healthcare facility in Northwest Rochester to serve residents of this rapidly growing area.

Administrators from OMC, the City of Rochester, Olmsted County, and several Rochester residents, including former and current OMC clinicians, will be present for the groundbreaking event. A light lunch will be served following the groundbreaking.

Please note that this advisory and content are embargoed until 5:00 AM Thursday, July 22.

Media representatives planning to attend the groundbreaking are asked to RSVP to Jeremy Salucka (507.292.7203 or jsalucka@olmmed.org) by 5:00 PM on Monday, July 19.

Olmsted Medical Center, a not-for-profit organization, has been southeastern Minnesota's hometown healthcare provider since 1949. Our 136 clinicians and nearly 1,000 healthcare professionals serve at 16 locations, including a multi-specialty clinic, a hospital with walk-in urgent care and 24-hour emergency room, two FastCare retail clinics in Rochester Shopko stores, and 10 community branch clinics. Olmsted Medical Center has more than 20 specialties and is best known for its convenient, quality personal primary care.
